### 2020 Election Previews Part Three

#### The President of the United States and select members of the House of Representatives

The 2020 election at local, state and federal levels may be the most important our nation has faced since the signing of the Declaration of Independence on July 4, 1776. With the near dissolution of the former Democratic Party, and prevailing influence of the Liberal/Socialist wing, the results of the election and the future of America could not be more conflicting. Do we rededicate our citizenry to the principles of the Founding Fathers, inherent values of our Judeo-Christian roots and unwavering support for the Constitution of the United States, the Bill of Rights and national sovereignty? Or, as liberals demand, do we abandon nearly 225 years of morality, freedom from tyranny and government fiat that millions have sacrificed in numerous wars to maintain. Will we remain, “the home of the free and land of the brave?” This election, perhaps more than 2016, will determine the future of our nation.

The analysis lead by Luke Stockstill, and collaborated on by many likeminded American Patriots, have reviewed candidates based on their conservative voting records indexed or scored by several organizations listed below. We also encourage apolitical individuals with expertise in the marketplace to seek public office as servant leaders. In an overview, the NWC believes in limited government, national sovereignty, conservative economic policies, an advanced technologically equipped military, shielding Judeo-Christian values (including protecting the unborn and opposing infanticide) and candidly supporting and defending the Constitution and the sovereign State of Israel.

For our survival, and the future of our posterity, America needs men and women like the 56 signees, *"And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our sacred Honor."*

Awarded two scholarships for college where he is majoring in political science with law school to follow. Luke has studied local, state and federal politics since his early teens. His favorite Presidents are Donald J. Trump, Andrew Jackson and George Washington.

FreedomWorks was originally founded as Citizens for a Sound Economy in 1984. Their mission to fight for liberty brought together some of the best and brightest minds in the liberty movement. We appreciate their “score card” on voting by each U.S. House and Senate member based on key economic issues.

Each year the Club for Growth issues Key Vote Alerts urging Representatives and Senators to vote in favor of economic policies that strengthen our nation’s economy and against legislation that would raise taxes, increase harmful regulations, and grow our already massive government.

**Election Previews**

Lead by Debbie Meadows, the mission of Right Women PAC is simple and strategic: to elect genuinely conservative women to Congress, women who will fight to defend the Constitution and to advance liberty. Their principles and thirteen policy issues fall issue by issue in line with the vision and mission of NWC. <https://rightwomen.com>

Led by true American Patriots, the House Freedom Fund only supports candidates for Congress who are dedicated to open, accountable, and limited government – candidates who will fight to defend the Constitution and advance policies that promote liberty, safety, and prosperity for all Americans. <https://www.housefreedomfund.com/#candidates>

“The Freedom Index: A Congressional Scorecard Based on the U.S. Constitution” rates congressmen based on their adherence to constitutional principles of limited government, fiscal responsibility, national sovereignty, and a traditional foreign policy of avoiding foreign entanglements. <https://www.thenewamerican.com/freedom-index>

**Election Previews**

Vote Smart’s mission is to provide free, factual, unbiased information on candidates and elected officials to all Americans. We reviewed the “National Conservative Special Interest Groups” section from their mission statement and description provided by each organization. Vote Smart does not evaluate or edit descriptions detailed by each group. <https://justfacts.votesmart.org/>

With so many astute and experienced “experts” on political issues, elected incumbents and those seeking to serve at the national level for the first time, why would the NWC appoint such a young person to represent the organization on election previews. Several basic principles assisted in the decision process. Like our endorsed candidates, there must be a true belief and knowledge of our national history (Founding Fathers, Declaration of Independence, the Constitution, etc.) with a proven commitment to Judeo-Christian values. They must possess an understanding (a lot research and dialogue) of incumbents and those seeking to serve our nation in public office. Critically, we strongly believe that we must engage younger men and women (Gen X, 1965-1979; Gen Y “Millennials”, 1980-1994 and Gen Z, 1995-2015) in the political process. Unlike the generation of “Baby Boomer’s” (1944-1964); social media and “anything Internet” have replaced the previous information highway – standard broadcast news outlets, print media, robocalls, pamphlets, etc. Quoting an advisor, these invigorating groups comprise a new army of “digital soldiers” that instantly exchange information, ideas, call meetings and quickly challenge false statements or “Fake News.”

Therefore, with the information gathered from Conservative Organizations and PAC’s, exhaustive research and demographic focus groups, the NWC has previewed and selected recommended candidates in three phases. With the exclusion of the President, this third phase or group is specifically for members of the House of Representatives. We believe there are some GOP members that must be replaced with a candidate that meet the criteria and mission of the National War Council. There are too many “Republicans in Name Only” – RINO’s currently serving in Congress.

## “Repair the Breach”

Like “Rawhide” (President Reagan) but in a different era and method, “Mogul” or President Donald J. Trump is the right man, for the right job at the right time in the storied history of America. He was in 2016 and he is in 2020. Facing opposition from the Democratic nominee for President, Hillary Clinton, the Democratic National Committee, the “establishment” – both Democrat and Republican, mainstream media, Hollywood, dozens of special interest groups funded by George Soros, reportedly \$2 billion funding the campaign and thousands of paid campaign workers, “Trump pulls off biggest upset in U.S. history.”<sup>5</sup> And what has President Trump done since the greatest upset in political history?

Unlike previous “politicians”, who say one thing to get elected and casually forget their commitments once in office, President Trump has kept his promises to the American people. From Main Street to Wallstreet, coast to coast and border to border the vibrant impact of the Presidency of Donald Trump has positively impacted Americans in all walks of life. Every ethnic group, gender and “faith group” has benefited and prospered under the leadership of a “business mogul” turned politician.

Taken directly from his website:

“On June 16th, 2015 real estate mogul Donald Trump descended from the escalator in Trump Tower and embarked on a mission to care for the Forgotten Men and Women of America with just four simple words: ‘**Make America Great Again.**’

Since then, this slogan is what has driven Donald Trump to win not only the Republican primary, but the presidency in the biggest political upset in modern American history. But this movement is far from over. While serving in office, President Trump has continuously delivered for the American people to put America First both at home and abroad.

The president has appointed conservative justices to our federal courts, provided the largest tax cuts for working-class families in American history, has ISIS on the run, and is committed to a safe and secure nation. Learn of the many accomplishments of President Trump that often go unreported by the Fake News Media as he continues to ‘**Make America Great Again.**’”<sup>6</sup>

## “Repair the Breach”

**U.S. House of Representatives**

The **United States House of Representatives** is the “lower house” of the United States Congress; the Senate is the “upper house.”

The House is composed of representatives who sit in congressional districts allocated to each state on a basis of population as measured by the U.S. Census, with each district entitled to one representative. Since its inception in 1789, all representatives have been directly elected. The number of voting representatives is fixed by law at 435. In addition, there are currently six non-voting members, bringing the total membership of the US House of Representatives to 441 or fewer with vacancies. As of the 2020 Census, the largest delegation is that of California, with 53 representatives. There are seven states have only one representative: Alaska, Delaware, Montana, North Dakota, South Dakota, Vermont and Wyoming.

The House is charged with the passage of federal legislation, known as bills, which, after concurrence by the Senate, are sent to the president for consideration. The House also has exclusive powers: it initiates all revenue bills, impeaches federal officers, and elects the president if no candidate receives a majority of electoral votes.

The presiding officer is the speaker of the House, who is elected by the members thereof (and is therefore traditionally the leader of the controlling party). The speaker and other floor leaders are chosen by the Democratic Caucus or the Republican Conference, depending on whichever party has more voting members.<sup>8</sup>
