## “Repair the Breach”

### 2020 Election Previews

**The President of the United States, two Governors, six U.S. Senators and twenty-five House of Representatives**

The 2020 election at local, state and federal levels may be the most important our nation has faced since the signing of the Declaration of Independence on July 4, 1776. With the near dissolution of the former Democratic Party, and prevailing influence of the Liberal/Socialist wing, the results of the election and future of American could not be more conflicting. Do we rededicate our citizenry to the principles of the Founding Fathers, inherent values of our Judeo-Christian roots and unwavering support for the Constitution of the United States, Bill of Rights and national sovereignty? Or, as liberals demand, do we abandon nearly 225 years of morality, freedom from tyranny and government fiat that millions have sacrificed in numerous wars to maintain. Will we remain, “the home of the free and land of the brave?” This election, perhaps more than 2016, will determine the future of our nation.

The analysis led by Luke Stockstill, and collaborated by many likeminded American Patriots, have reviewed candidates based on their conservative voting records indexed or scored by several organizations listed below. We also encourage apolitical individuals with expertise in the marketplace to seek public office as servant leaders. In an overview, the NWC believes in limited government, national sovereignty, conservative economic policies, an advanced technologically equipped military, shielding Judeo-Christian values (including protecting the unborn and opposing infanticide) and candidly supporting and defending the Constitution and the sovereign State of Israel.

For our survival, and the future of our posterity, America needs men and women like the 56 signees, *"And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our sacred Honor."*

Luke started supporting candidate Donald J. Trump on June 15, 2015. Graduated with a 4.0 GPA in the rigorous ABEKA Accredited Program. Awarded two scholarships for college where he is majoring in political science with law school to follow. Luke has studied local, state and federal politics since his early teens. His favorite Presidents are Donald J. Trump, Andrew Jackson and George Washington.

FreedomWorks was originally founded as Citizens for a Sound Economy in 1984. Their mission to fight for liberty brought together some of the best and brightest minds in the liberty movement. We appreciate their “score card” on voting by each U.S. House and Senate member based on key economic issues.

Each year the Club for Growth issues Key Vote Alerts urging Representatives and Senators to vote in favor of economic policies that strengthen our nation’s economy and against legislation that would raise taxes, increase harmful regulations, and grow our already massive government.

Led by Debbie Meadows, the mission of Right Women PAC is simple and strategic: to elect genuinely conservative women to Congress, women who will fight to defend the Constitution and to advance liberty. Their principles and thirteen policy issues fall issue by issue in line with the vision and mission of NWC. <https://rightwomen.com>

Led by true American Patriots, the House Freedom Fund only supports candidates for Congress who are dedicated to open, accountable, and limited government – candidates who will fight to defend the Constitution and advance policies that promote liberty, safety, and prosperity for all Americans. <https://www.housefreedomfund.com/#candidates>

“The Freedom Index: A Congressional Scorecard Based on the U.S. Constitution” rates congressmen based on their adherence to constitutional principles of limited government, fiscal responsibility, national sovereignty, and a traditional foreign policy of avoiding foreign entanglements. <https://www.thenewamerican.com/freedom-index>

Vote Smart’s mission is to provide free, factual, unbiased information on candidates and elected officials to all Americans. We reviewed the “National Conservative Special Interest Groups” section from their mission statement and description provided by each organization. Vote Smart does not evaluate or edit descriptions detailed by each group. <https://justfacts.votesmart.org/>

With so many astute and experienced “experts” on political issues, elected incumbents and those seeking to serve at the national level for the first time, why would the NWC appoint such a young person to represent the organization on election previews. Several basic principles assisted in the decision process. Like our endorsed candidates, there must be a true belief and knowledge of our national history (Founding Fathers, Declaration of Independence, the Constitution, etc.) with a proven commitment to Judeo-Christian values. They must possess an understanding (a lot research and dialogue) of incumbents and those seeking to serve our nation in public office. Critically, we strongly believe that we must engage younger men and women (Gen X, 1965-1979; Gen Y “Millennials”, 1980-1994 and Gen Z, 1995-2015) in the political process. Unlike the generation of “Baby Boomer’s” (1944-1964); social media and “anything Internet” have replaced the previous information highway – standard broadcast news outlets, print media, robocalls, pamphlets, etc. Quoting an advisor, these invigorating groups comprise a new army of “digital soldiers” that instantly exchange information, ideas, call meetings and quickly challenge false statements or “Fake News.”

Therefore, with the information gathered from Conservative Organizations and PAC’s, exhaustive research and demographic focus groups, the NWC has previewed and selected recommended candidates in two phases. With the exclusion of the President, this first phase or group is specifically for new candidates. The next phase will focus on incumbents and will be updated as new candidates potentially emerge. We believe there are some GOP members that must be replaced with a candidate that meet the criteria and mission of the National War Council. There are too many “Republicans in Name Only” – RINO’s.

## “Repair the Breach”

Like “Rawhide” (President Reagan) but in a different era and method, “Mogul” or President Donald J. Trump is the right man, for the right job at the right time in the storied history of America. He was in 2016 and he is in 2020. Facing opposition from the Democratic nominee for President, Hillary Clinton, the Democratic National Committee, the “establishment” – both Democrat and Republican, the mainstream media, Hollywood, dozens of special interest groups funded by George Soros, reportedly \$2 billion funding the campaign and thousands of paid campaign workers, “Trump pulls off biggest upset in U.S. history.”<sup>7</sup> And what has President Trump done since the greatest upset in political history?

Unlike previous “politicians,” who say one thing to get elected and casually forget their commitments once in office, President Trump has kept his promises to the American people. From Main Street to Wallstreet, coast to coast and border to border the vibrant impact of the Presidency of Donald Trump has positively impacted Americans in all walks of life. Every ethnic group, gender and “faith group” has benefited and prospered under the leadership of a “business mogul” turned politician.

Taken directly from his website:

“On June 16th, 2015 real estate mogul Donald Trump descended from the escalator in Trump Tower and embarked on a mission to care for the Forgotten Men and Women of America with just four simple words: **‘Make America Great Again.’**

Since then, this slogan is what has driven Donald Trump to win not only the Republican primary, but the presidency in the biggest political upset in modern American history. But this movement is far from over. While serving in office, President Trump has continuously delivered for the American people to put America First both at home and abroad.

The president has appointed conservative justices to our federal courts, provided the largest tax cuts for working-class families in American history, has ISIS on the run, and is committed to a safe and secure nation. Learn of the many accomplishments of President Trump that often go unreported by the Fake News Media as he continues to **‘Make America Great Again.’”<sup>8</sup>**

### Senators

The right to life is one vote away from being either restored or further eroded.

**South Dakota.** Challenging a Republican incumbent (RINO), State House Representative Scyller Borglum is a strong advocate for controlling the national deficit, providing access to affordable healthcare, and reforming immigration policies. Borglum attended Pacific Lutheran University where she earned a Bachelor of Business Administration and then received a Fulbright Scholarship which she used to study oil and gas development in Oslo, Norway. Her brother's death in a traffic collision inspired Borglum to earn a master's degree in theological studies from Duke Divinity School.

She opposes efforts to confiscate firearms from honest gun owners, supports term limits, opposes tax increases and supports defunding Planned Parenthood. Endorsements: House Freedom Fund

**Indiana (5<sup>th</sup> D).** Growing up in socialist-controlled Ukraine, Victoria Spartz experienced firsthand the dark side of socialism.
